Your conduct: Your hounds have been entering onto private land on several occasions and have been reported as killing both a muntjac deer and a fox, during the months of September and December 2023. This has caused damage to property and harassment alarm and distress to residents and land owners within the South Staffordshire area. CCTV shows that the hounds were unsupervised and out of control. Therefore, we require the following requirements to be adhered to with immediate effect:

1. Inform us of meet locations, including dates and the routes the trails are to be laid
2. Inform us of details of people in charge at each meet – names and a contact number
3. Scent trail to be laid 20-30 mins before the hunt starts off and trail layer to be recorded laying the trail – possibly with a phone or ‘go-pro’ camera, to confirm times trail laid and prove the trail was laid
4. To have the artificial scent ready to show, should officers attend and request this
5. Whipper in and huntsmen to control the hounds to prevent from straying off the scent and onto private land and not to pursue wild mammals
6. Ensure you have land owner’s permission and have all details of those land owners, in case this needs confirming
7. Trails to be laid well away from main roads and also away from woods, coverts and hedges where wildlife would naturally go to rest
8. Please remember nobody has authority to stop traffic, other than the police
9. Avoid areas where badger setts are
10. In the event of any accidental kills of wild mammals, continue to contact police straight away, leaving the animal in situ as evidence.
