FOI Ref 17429

Request - You asked us the following:

I submit this request for specific information regarding the stop and search data in Staffordshire Police area of responsibility. The information being sought relates to the datasets gathered by various public safety bodies in your area. This information is sought under the Freedom of Information Act 2000 (FOIA 2000). We are requesting the following data for the year 2023:

1. How many stop and search encounters took place in the area?
2. How many police officers were present at every encounter?
3. In addition to data for question 2, please provide data sorted by grounds, object and purpose of the search, legal power used, police outcome, action taken/sanction (if applicable), offence (if applicable), as well as the gender, age and ethnicity of the person stop and searched.

We received your request on 31/10/2024 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police's response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this particular request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit.
- Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit'.

The above information has been withheld for the following reasons:

There is no method by which we can easily retrieve information from our systems to answer parts of this request. For the time period requested, there have been in excess of 5000 stop and search records, in order to ascertain the number of Officers at each stop and search the record for each search would require a manual review. To extract this data would therefore require a very labour-intensive manual trawl through each record. Additionally, data regarding sanction and offence would also require a manual trawl of each record to gather this data.

From dip sampling, it has been estimated that it would take approximately 6 minutes to review each record to answer this request, this would equate to over 500 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the FOI Act by some considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, in order to comply with this obligation please see below.

In order to refine your request, data can be provided for question 1 along with legal power used, principal outcome (i.e. arrest, no further action etc), gender, age and self-defined ethnicity.
