There is no method by which we can easily retrieve information from our systems to answer this request. For the time period requested, there have been in excess of 3,000 occurrences of the offences of robbery. In order to ascertain whether the suspect(s) in each offence was using an E-bike, the record for each offence would require manual review. To extract this data would therefore require a very labour-intensive manual trawl through each record.

From dip sampling, it has been estimated that it would take approximately 4 minutes to review each record to answer this request, this would equate to over 200 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the Freedom of Information Act by some considerable margin.

The following exemptions have been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit.
Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit'.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, in order to comply with this obligation please see below.

Unfortunately, we cannot suggest a way in which your request could be simplified or pared down in order to bring it within the confines of the time and cost threshold.
