Request - You asked us the following:

For each calendar year from 2020 through to the most recent available data in 2025, please provide:

A. The number of road traffic collisions recorded where the contributing factor was:

"Dazzling headlights"

"Headlight glare"

Or any similar wording used in your reporting system

B. The number of:

Fixed Penalty Notices (FPNs)

Verbal warnings

Or other enforcement actions
issued for offences involving:

Headlights being too bright or dazzling

Use of non-compliant, aftermarket, or misaligned headlights

C. If available, the number of formal public complaints or reports relating to headlight glare or dangerously bright headlights.

We received your request on 04/08/2025 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police's response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this particular request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit.
Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit'.

The above information has been withheld for the following reasons:

There is no method by which we can readily retrieve information from our systems to answer parts of this request. For the time period requested, there have been in excess of 53,300 road traffic collision incidents, in order to ascertain whether 'dazzling headlights' or 'headlight glare' were an element in the incident the record for each one would require a manual review. To extract this data would therefore require a very labour-intensive manual trawl through each record.

From dip sampling, it has been estimated that it would take approximately 3 minutes to review each record to answer this request, this would equate to over 2,665 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the FOI Act by some considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, in order to comply with this obligation please see below.

In order to refine your request, a free text word search can be carried out on our incident management database system for 'dazzling headlights' and 'headlight glare' in relation to questions A and C. However, please note that this will only return incidents where these exact phrases have been used in the incident log. Data for question B can be provided in full.

Please be advised that all Freedom of Information request responses are published on the Staffordshire Police website although personal details are not included.
