FOI Ref 21711

Request - You asked us the following:

I'm researching fatal and serious injury road collisions involving last-mile delivery vehicles. Please can you help with the following? Please use the attached spreadsheet or create your own spreadsheet for the answers.

1. How many (a) fatal and (b) serious injury road collisions recorded by your force mention the following major last-mile delivery firms in 2022/23, 2023/24 and 2024/25:

- Amazon (including Amazon Logistics and Amazon Delivery Partners)
- DPD
- Evri
- DHL
- UPS
- Yodel
- Royal Mail

2. Authorised Professional Practice (APP) guidance for fatal and serious injury road collisions states police forces should consult the Health and Safety Executive (HSE) where there are concerns regarding work-related issues following collisions. How many times has your force contacted the HSE about the following major last-mile delivery firms in 2022/23, 2023/24 and 2024/25:

- Amazon (including Amazon Logistics and Amazon Delivery Partners)
- DPD
- Evri
- DHL
- UPS
- Yodel
- Royal Mail

Please use the attached spreadsheet or create your own spreadsheet for the answers.

We received your request on 07/08/2025 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police's response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this particular request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit.
Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit'.

The above information has been withheld for the following reasons:

There is no method by which we can readily retrieve information from our systems to answer this request. For the time period requested, there have been in excess of 250 fatal or serious injury road traffic collisions. In order to ascertain whether the incident involved last-mile delivery vehicles for your requested delivery firms and how many times the Health and Safety Executive had been contacted the record for each offence would require a lengthy manual review. To extract this data would therefore require a very labour-intensive manual trawl through each record.

From dip sampling, it has been estimated that it would take approximately 10 minutes to review each record to answer this request, this would equate to upwards of 41 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the FOI Act by some considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, in order to comply with this obligation please see below.

In order to assist in refining your request. If you were to remove the requirement to provide data relating to contact being made with the HSE or relating to last mile delivery, using a free text search of our incident recording system it would be possible to provide the number of incidents containing the words 'Amazon, DPD, Evri, DHL, UPS, Yodel or Royal Mail', where these were recorded as RTC Fatal or RTC Serious Injury. This data could be presented broken down by year.

However, please note: this would be a contextless free text search of our incident recording system and would only include incidents containing the words searched, plural or singular versions of the word would not be returned unless also specified within the search parameters. Further relevant incidents may also be recorded in which these words do not appear.

Please be advised that all Freedom of Information request responses are published on the Staffordshire Police website although personal details are not included.
