

3 December 2025

FOI Ref 22197

Request - You asked us the following:

1. What is the monetary value of tools (hand tools and power tools) your police force recovered that have been stolen from vehicles, construction sites and home premises' between December 1 2024 and December 1 2025? Are you able to identify these figures relating to tradespeople?
2. How many reports of tool theft has your police force received between December 1 2024 and December 1 2025 and what percentage of stolen tools have you recovered in that time period? Are you able to identify these figures relating to tradespeople?

We received your request on 02/12/2025 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police's response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this particular request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit.
Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit'.

The above information has been withheld for the following reasons:

There is no method by which SP can readily retrieve information from recording systems to answer this request. For the time period requested, there have been in excess of 17,000 theft occurrences. In order to determine whether a tool or tools were stolen in these offences, the value of any such tools stolen and whether the offence was relating to tradespeople, the record for each offence would require manual review. Further reviews would also need to be conducted to determine if a tool or tools were recovered and whether recovered tools were related to tradespeople. To extract this data would therefore require a very labour-intensive manual trawl through each record.

From dip sampling, it has been estimated that it would take approximately 5 minutes to review each record to answer this request, this would equate to over 1,416 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the Freedom of Information Act by some considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, in order to comply with this obligation please see below.

Unfortunately, SP cannot suggest a way in which your request could be simplified or pared down in order to bring it within the confines of the time and cost threshold.

Please be advised that all Freedom of Information request responses are published on the Staffordshire Police website although personal details are not included.
