

16 December 2025

FOI Ref 22232

Request - You asked us the following:

Please provide a CSV file containing all motor vehicles recorded as stolen in your force area for the most recent five calendar years available.

The dataset should contain one row per stolen vehicle with the following fields only

- Make
- Model
- Year of manufacture
- Date of offence

If possible, please also provide an aggregated table in the format
Make | Model | Year of Manufacture | Number of vehicles stolen in the last 5 years

Please ensure that Model refers to the specific model name and is not grouped into broader families, for example output “Audi A3” rather than “Audi A”.

Clarification received on 12/12/2025

Please go ahead and provide the make, model and date of each offence for the last five calendar years. A CSV format would be preferred if possible.

No year of manufacture is required if this is not possible.

Staffordshire Police (SP) received your request on 10/12/2025 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police’s response to your enquiry is as follows:

SP holds the requested information.

- Please provide a CSV file containing all motor vehicles recorded as stolen in your force area for the most recent five calendar years available.
- The dataset should contain one row per stolen vehicle with the following fields only
 - Make
 - Model
 - Year of manufacture – **Withdrawn.**
 - Date of offence
- If possible, please also provide an aggregated table in the format
- Make | Model | Year of Manufacture | Number of vehicles stolen in the last 5 years

- This is not possible due to the vehicle make and model being free text fields that contain many different spellings of vehicle makes and models.

- Please ensure that Model refers to the specific model name and is not grouped into broader families, for example output “Audi A3” rather than “Audi A”.
- **Disclosed, please see the accompanying file titled ‘FOI 22232 Stolen Vehicles Data’.**

Please be advised that the vehicle make and model is a free text field whereby Officers are able to type anything into the fields therefore this may contain spelling errors etc. Where there are blank fields this is where nothing has been entered by an Officer.

Please note that this data has been provided to the best of the ability of SP, subject to the limitation of current recording protocols and systems/software. Additional offences may have been recorded during these timescales but are awaiting finalisation and input onto these systems and would not be present within this dataset.

Every effort is made to ensure that the data presented is accurate and complete. However, it is important to note that this has been extracted from multiple sources, developed for specific policing purposes, for which data extraction methods have not been specifically designed to directly correlate with the terminology of this request. Therefore, the data presented is subject to the inaccuracies and idiosyncrasies inherent in any large-scale recording system.

Consequently, care should be taken in the interpretation and presentation of this data, to not misrepresent the whole or any part of the data disclosed.

Please be advised that all Freedom of Information request responses are published on the SP website although personal details are not included.

Freedom of Information Request Appeals Procedure

1. Who Can Ask for a Review

Any person who has requested information from SP, which has been dealt with under the Freedom of Information Act, is entitled to complain and request an internal review, if they are dissatisfied with the response they received.

2. How to Request a Review

Requests for review of a Freedom of Information request must be made in writing within two months of the date of receipt of this email, and should be addressed to:

IAT@staffordshire.police.uk

Or by Post to:

Information Access Team
Staffordshire Police HQ
PO Box 3167
Stafford

STAFFORDSHIRE
POLICE

ST16 9JZ

The reference number, date of the request and details of why the review is being requested must be included. Requests for review should be brought to the attention of the Information Access Team within two months of the SP response to the original FOI request.

3. Review Procedure

Receipt of a request for review will be acknowledged in writing. The review will be conducted by a supervisor who is independent from the original Decision Maker. The Information Access Team will set a target date for a response. The response will be made as soon as is practicable with the intention to complete the review within twenty working days. In more complex cases the review may take up to forty working days.

The independent supervisor will conduct a review of the handling of the request for information and of decisions taken, including decisions taken about where the public interest lies in respect of exempt information where applicable. The review enables a re-evaluation of the case, considering the matters raised by the complaint.

4. Conclusion of the Appeal

On completion of the review the independent supervisor will reply to the appellant with the result of the review. If the appellant is still dissatisfied following the review they should contact the Information Commissioner to make an appeal. The Information Commissioner can be contacted via the following link:
