

9 January 2025

FOI Ref 17610

Request - You asked us the following:

I would like to ask about crimes recorded by Police at churches or on church property under the Freedom of Information Act:

1. How many crimes have been recorded by your force involving theft from/at churches or from/at church property from January 1 2022- December 30 2024?
 - a) If possible please could you clarify how many of the thefts recorded relate to lead being taken from the church roof?
2. How many crimes have been recorded by your force involving assault (physical/violent) at churches or on church property from January 1 2022- December 30 2024?
3. How many crimes have been recorded of vandalism by your force on churches or on church property from January 1 2022- December 30 2024?

Note: Some forces do not log 'church' as a building type specifically and may instead log location as religious building. For the avoidance of doubt, I would like data related to religious buildings in this instance.

We received your request on 31/12/2024 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police's response to your enquiry is as follows:

Please be advised that a search for all theft, assault and criminal damage (there is no specific offence for vandalism, these offences would fall under criminal damage) has been carried out where the MO location premise subtype has been recorded as 'Church/Religious Building' or 'Churchyard'.

Please note that this data has been provided to the best of our ability, subject to the limitation of current recording protocols and systems/software. Additional offences may have been recorded during these timescales but are awaiting finalisation and input onto these systems and would not be present within this dataset.

Every effort is made to ensure that the data presented is accurate and complete. However, it is important to note that this has been extracted from multiple sources, developed for specific policing purposes, for which data extraction methods have not been specifically designed to directly correlate with the terminology of this request. Therefore, the data presented is subject to the inaccuracies and idiosyncrasies inherent in any large-scale recording system.

As a consequence, care should be taken in the interpretation and presentation of this data, so as to not misrepresent the whole or any part of the data disclosed.
