FOI Ref 17646

Request - You asked us the following:

I am seeking data on road traffic collisions (RTCs) involving motorcycles and the number of motorcyclist fatalities resulting from these RTCs in your area. If this information is available elsewhere, please direct me to where I may find it.

Specifically, I would like to request the following information as individual requests:

1. The total number of RTCs involving motorcycles in your police force area for the past five years.
2. The total number of motorcyclist fatalities resulting from RTCs in your police force area for the past five years.
3. The total number of RTCs for your police force area for the past five years.
4. The number of serious injuries sustained by motorcyclists in RTCs for your police force area for the past five years.
5. Any available data on the time of day, day of the week, and location (urban/rural) of these RTCs involving motorcycles.

We received your request on 08/01/2025 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police's response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this particular request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit.
- Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit'.

The above information has been withheld for the following reasons:

There is no method by which we can readily retrieve information from our systems to answer this request. For the time period requested, there have been in excess of 47,000 incidents of road traffic collisions recorded on our incident recording system. In order to determine whether the incident involved a motorbike, and then the extent of any injuries, whether a fatality occurred or the time and location of the incident, the record for each incident would require manual review. To extract this data would therefore require a very labour-intensive manual trawl through each record.

From dip sampling, it has been estimated that it would take approximately 5 minutes to review each record to answer this request, this would equate to over 3,916 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the Freedom of Information Act by some considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, in order to comply with this obligation please see below.

If the other questions were withdrawn, Staffordshire Police would be able to provide a response to question 3, the total number of road traffic collisions in the past five years.
