FOI Ref 21516

Request - You asked us the following:

I am submitting a request for information under the Freedom of Information Act 2000. I would be grateful if you could provide the following data held by your authority:

Please provide the number of reported dog thefts in your jurisdiction for each of the past three full calendar years (2022, 2023, and 2024), as well as for 2025 to date.

The data should be broken down by month and year, allowing us to understand any annual and seasonal trends.

If available, I would also like a geographic breakdown of these reported thefts using the most detailed level possible (such as postcode, neighbourhood, or police ward), with the location format clearly stated.

Please also include, if recorded:

A breakdown by breed of the dogs reported stolen during the same period.

The location type where the theft occurred (e.g., at home, in a local park, from a vehicle, etc.).

The time of day when the incidents occurred (morning, afternoon, evening, overnight, or more specific times if available).

The number of dogs reported stolen that were later found, rescued, or reclaimed.

If you use specific crime codes or tags to record dog theft, or if there is a distinction between attempted and completed thefts in your data, please include any explanatory notes or definitions.

We received your request on 30/06/2025 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police's response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this particular request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit.

Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit'.

The above information has been withheld for the following reasons:

There is no method by which we can readily retrieve information from our systems to answer this request. For the time period requested, there have been in excess of 50,400 theft occurrences, in order to ascertain

whether the item stolen included a 'dog' the record for each offence would require a manual review. Additionally, each record would then have to be manually checked to establish the location, the breed of the dog, the time of day and whether the dog was found. To extract this data would therefore require a very labour-intensive manual trawl through each record.

From dip sampling, it has been estimated that it would take approximately 4 minutes to review each record to answer this request, this would equate to over 3,360 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the FOI Act by some considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, in order to comply with this obligation please see below.

Unfortunately, we cannot suggest a way in which your request could be simplified or pared down in order to bring it within the confines of the time and cost threshold.

Please be advised that all Freedom of Information request responses are published on the Staffordshire Police website although personal details are not included.
