

16 July 2025

FOI Ref 21559

Request - You asked us the following:

The purpose of this request is to gather data on the number of emergency service callouts linked to sleep, fatigue or tiredness in the region.

Similar information has previously been released under the Freedom of Information Act: "Out of the 21 UK constituencies that responded to a Freedom of Information request, Thames Valley recorded the highest number of fatigue-related accidents over the three-year time period with nearly 400 accidents, while Surrey reported the highest number of fatalities."

Specifically, I am seeking anonymised data on the following:

The total number of incidents attended by your service where sleep, fatigue or driving while tired was recorded as a factor for each of the past five calendar years (2020, 2021, 2022, 2023, 2024 and partial data for 2025 if available)

Incidents could include, but are not limited to: Falling asleep while driving, road traffic collisions where driver fatigue was cited, etc

If there is no specific marker or code for "sleep" or "fatigue", I would be grateful if you could instead provide the number of incidents in which any relevant fatigue-related terms were noted in officer or incident logs- e.g., via keyword search for: "sleep", "fatigue", "tired", "exhaustion", "drowsy", etc.

We received your request on 10/07/2025 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police's response to your enquiry is as follows:

Staffordshire Police holds the requested information.

- The total number of incidents attended by your service where sleep, fatigue or driving while tired was recorded as a factor for each of the past five calendar years (2020, 2021, 2022, 2023, 2024 and partial data for 2025 if available) – **Disclosed, please see the accompanying file titled 'FOI 21559 Callouts Linked to Fatigue Data.xlsx'.**

Please note that the data provided has been retrieved from a search of our incident recording system for incidents categorised as road traffic collisions only, between 01/01/2020 and 10/07/2025, whereby one of the keywords "sleep", "fatigue", "tired", "exhaustion" or "drowsy" has been included within the incident log. The accuracy and reliability of these searches cannot be guaranteed as only the incident log of the report is searched. If this term is mentioned elsewhere (i.e. within the crime report, statements etc) these will not be returned in the results. Additionally, if the term is misspelt within the incident log, this will not be returned. To provide accurate results would require manually interrogating each road traffic collision within the specified timeframe to establish its relevance to your request.

Please note that this data has been provided to the best of our ability, subject to the limitation of current recording protocols and systems/software. Additional offences/incidents may have been recorded during these timescales but are awaiting finalisation and input onto these systems and would not be present within this dataset.

Every effort is made to ensure that the data presented is accurate and complete. However, it is important to note that this has been extracted from multiple sources, developed for specific policing purposes, for which data extraction methods have not been specifically designed to directly correlate with the terminology of this request. Therefore, the data presented is subject to the inaccuracies and idiosyncrasies inherent in any large-scale recording system.

As a consequence, care should be taken in the interpretation and presentation of this data, so as to not misrepresent the whole or any part of the data disclosed.

Please be advised that all Freedom of Information request responses are published on the Staffordshire Police website although personal details are not included.

Freedom of Information Request Appeals Procedure

1. Who Can Ask for a Review

Any person who has requested information from Staffordshire Police, which has been dealt with under the Freedom of Information Act, is entitled to complain and request an internal review, if they are dissatisfied with the response they received.

2. How to Request a Review

Requests for review of a Freedom of Information request must be made in writing within two months of the date of receipt of this email, and should be addressed to:

foi@staffordshire.police.uk

Or by Post to:

Central Disclosure Unit
Staffordshire Police HQ
PO Box 3167
Stafford
ST16 9JZ

The reference number, date of the request and details of why the review is being requested must be included. Requests for review should be brought to the attention of the Central Disclosure Unit within two months of the Force's response to the original FOI request.

3. Review Procedure

Receipt of a request for review will be acknowledged in writing. The review will be conducted by another Decision Maker who is independent from the original Decision Maker. The Central Disclosure Unit will set a target date for a response. The response will be made as soon as is practicable with the intention to

STAFFORDSHIRE
POLICE

complete the review within 20 working days. In more complex cases the review may take up to 40 working days.

The independent Decision Maker will conduct a review of the handling of the request for information and of decisions taken, including decisions taken about where the public interest lies in respect of exempt information where applicable. The review enables a re-evaluation of the case, taking into account the matters raised by the complaint.

4. Conclusion of the Appeal

On completion of the review the Independent Decision maker will reply to the complainant with the result of the review. If the complainant is still dissatisfied following the review they should contact the Information Commissioner to make an appeal. The Information Commissioner can be contacted via the following details:

Information Commissioner's Office
Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF
