FOI Ref 21623

Request - You asked us the following:

I'm writing under the Freedom of Information act - I would be grateful if you are able to provide me with the following information:

Please can you provide me with the total number of offences recorded by police, broken down by month, since January 2024, of the following offences below. I'm specifically interested in those offences below relating to artificial intelligence usage, so I would like a breakdown to only include those offences which mention "AI", "artificial intelligence" or "deep fake" or "deepfake" in the crime MO notes – NB: if the force already has its own AI flag, please use that instead of the keyword search.

For each month since and including January 2023, up to the latest month available, could I have the AI-related offences (as classified using the above search terms):

1. Under Section 66b The Sexual Offences Act 2003 (the offence of sharing or threatening to share an intimate photograph or film of, or appearing to be of, someone - colloquially known as 'revenge pornography' – see college of policing guidance here: <https://www.college.police.uk/guidance/sharing-photographs-of-people-intimate-state>)
2. Under Section 66 E-F The Sexual Offences Act 2003 (the offence of creating purported intimate image of adult or Requesting the creation of purported intimate image of adult - basically the creation of revenge pornography)
3. Under Section 1a Protection of Children Act 1978 (creating sexually explicit images / pseudo images of a child)
4. Under Section 1b Protection of Children Act 1978 (to distribute or show such indecent photographs)
5. Under Section 1c Protection of Children Act 1978 (to possess such indecent photographs or pseudo-photographs)

We received your request on 23/07/2025 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police's response to your enquiry is as follows:

However, it is important to note that this has been extracted from multiple sources, developed for specific policing purposes, for which data extraction methods have not been specifically designed to directly correlate with the terminology of this request. Therefore, the data presented is subject to the inaccuracies and idiosyncrasies inherent in any large-scale recording system.

As a consequence, care should be taken in the interpretation and presentation of this data, so as to not misrepresent the whole or any part of the data disclosed.
