Request amended 05/06/2025:

Could you please provide me with

- The number of collisions involving electric powered pedal bicycles (popularly known as e-bikes) for each calendar year from 2018 up to and including 2024. Also the number of casualties and fatalities that happened as a result of those collisions
- The number of collisions and casualties involving electric powered scooters (known as e-scooters) for each calendar year from 2018 up to and including 2024. Also the number of casualties and fatalities that happened as a result of those collisions

We received your request on 04/06/2025 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police's response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this particular request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit.
- Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit'.

The above information has been withheld for the following reasons:

There is no method by which we can readily retrieve information from our systems to answer this request. For the time period requested, there have been in excess of 71,000 reported road traffic collisions. In order to determine whether the road traffic collision involved an e-bike or an e-scooter, and whether there were any casualties or fatalities, the record for each incident would require manual review. To extract this data would therefore require a very labour-intensive manual trawl through each record.

From dip sampling, it has been estimated that it would take approximately 5 minutes to review each record to answer this request, this would equate to over 5,916 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the Freedom of Information Act by some considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, in order to comply with this obligation please see below.

Unfortunately, we cannot suggest a way in which your request could be simplified or pared down in order to bring it within the confines of the time and cost threshold.

Please be advised that all Freedom of Information request responses are published on the Staffordshire Police website although personal details are not included.
