FOI Ref 21492

Request - You asked us the following:

Definition

For the purposes of this request, a “hit and run” refers to a “fail to stop collision” or a “fail to stop RTC (Road Traffic Collision)”, where a driver involved in a collision does not remain at the scene as required by law.

Please provide the following data for each calendar year from 2019 to 2025 (inclusive):

1. The total number of recorded road traffic collisions identified as “fail to stop collisions” or “fail to stop RTCs”.
2. A breakdown of these incidents by:
 - o Year/Month
 - o Outcome (e.g. suspect identified, suspect charged, no suspect traced)
 - o Whether any injuries were recorded (if available, broken down by severity: minor, serious, fatal)
3. The number of individuals arrested or charged in connection with hit-and-run incidents each year.
4. The number of hit-and-run incidents involving:
 - o A pedestrian
 - o A cyclist
 - o Another motor vehicle
 - o Other road users (e.g. motorbike, scooter)
5. Where recorded, please provide:
 - o The age and gender of the victim(s) involved in each incident.
 - o The age and gender of any identified or charged suspect(s) (perpetrators).

We received your request on 23/06/2025 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police’s response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this particular request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit.
- Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit’.

The above information has been withheld for the following reasons:

There is no method by which we can readily retrieve information from our systems to answer this request. There is no specific incident category for ‘hit and run’ or similar incidents, these would be recorded as

RTC's (road traffic collisions). For the time period requested, there have been in excess of 63,600 RTC incidents, in order to ascertain whether these involved a 'hit and run' the record for each one would require a manual review. To extract this data would therefore require a very labour-intensive manual trawl through each record.

From dip sampling, it has been estimated that it would take approximately 3 minutes to review each record to answer this request, this would equate to over 3,180 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the FOI Act by some considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, in order to comply with this obligation please see below.

Unfortunately, we cannot suggest a way in which your request could be simplified or pared down in order to bring it within the confines of the time and cost threshold.

Please be advised that all Freedom of Information request responses are published on the Staffordshire Police website although personal details are not included.
