We received your request on 24/06/2025 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police's response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this particular request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit. Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit'.

The above information has been withheld for the following reasons:

This is because there is no readily retrievable system to extract data to answer this request. There are over 29,430 road traffic collisions reported in the time period requested and these would need individually reviewing to identify if an 'e-scooter' was involved. It has been estimated that to answer this request will take approximately 4 minutes to review each record, which equates to 1,962 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the FOI Act by some considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, in order to comply with this obligation please see below.

In order to assist in refining your request, data could be provided for Question 1 from our crime recording system where a free text search for 'e-scooter' has been conducted on the property page. However, please note further seizures may have occurred whereby the word 'e-scooter' is not mentioned in the free text field and therefore would not be included in this dataset.

Please be advised that all Freedom of Information request responses are published on the Staffordshire Police website although personal details are not included.
