

5 March 2025

FOI Ref 17891

Request - You asked us the following:

- 1) The number of deaths of women referred by the force to be considered for domestic homicide reviews/domestic abuse related death reviews between 2019-2024
- 2) How many of the referrals identified in response to question 1 resulted in the review process being undertaken and how many did not
- 3) For each death identified in response to question 1, please provide the number of DASH assessments completed by the force in relation to the deceased prior to their death and the risk level identified in each assessment
- 4) For each death identified in response to question 1, please provide the number of occasions on which the deceased was discussed at the Multi-Agency Risk Assessment Conference/High Risk Daily Meeting/Daily Risk Assessment Management Meeting or equivalent meeting prior to their death.

We received your request on 26/02/2025 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police's response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this particular request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit.
Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit'.

The above information has been withheld for the following reasons:

There is no method by which we can readily retrieve information from our systems to answer parts of this request. For the time period requested, there have been 37 cases, in order to ascertain the number of DASH assessments and the risk level of these the record for each case would require a manual review. Please be advised that there will be multiple records in each case that would need to be manually reviewed. Additionally, to establish whether the deceased was discussed at the Multi-Agency Risk Assessment Conference/High Risk Daily Meeting/Daily Risk Assessment Management Meeting or equivalent meeting prior to their death, each record in each case would again have to be manually checked to obtain this information if held. To extract this data would therefore require a very labour-intensive manual trawl through each record.

From dip sampling, it has been estimated that it would take approximately 3 hours to review each record to answer this request, this would equate to 111 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the FOI Act by some considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, in order to comply with this obligation please see below.

To assist in refining your request, data can be provided for question 1 and 2 for open cases in the last 12 months from 1st March 2024 until today. Some of these cases date back to 2020 however they are only included in the 12 month dataset due to them still being open now. Please note that any closed cases have been archived and are not in a searchable format.

Please be advised that all Freedom of Information request responses are published on the Staffordshire Police website although personal details are not included.
