FOI Ref 21281

Request - You asked us the following:

Under the Freedom of Information Act 2000, I would like to request the following information:

1. The number of drivers stopped, fined, or prosecuted for offences related to illegal or excessively noisy exhaust systems, under the Road Traffic Act 1988 and the Road Vehicles (Construction and Use) Regulations 1986, for each of the calendar years 2019, 2020, 2021, 2022, 2023, and 2024 to date.
2. The number of Section 59 warnings (Police Reform Act 2002) issued for vehicles causing alarm, distress, or annoyance due to exhaust noise, over the same time period.
3. If available, the top five locations (e.g., streets, towns, areas) within your force area where the highest number of such offences or warnings were recorded.
4. If available, the highest recorded decibel readings from any enforcement equipment (e.g., sound meters) used to measure vehicle noise.

We received your request on 29/04/2025 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police's response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this particular request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit.
- Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit'.

The above information has been withheld for the following reasons:

There is no method by which we can readily retrieve information from our systems to answer parts of this request. With regards to question 2, each officer stopped offence would need to be manually checked to establish whether any Section 59 warnings had been issued. For the time period requested, there have been in excess of 20,000 driving offences that would require a manual review. Additionally, the same process would apply to answer question 4. To extract this data would therefore require a very labour-intensive manual trawl through each record.

From dip sampling, it has been estimated that it would take approximately 2 minutes to review each record to answer this request, this would equate to over 666 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the FOI Act by some considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, in order to comply with this obligation please see below.

To assist in refining your request, data can be provided for question 1 and 3 in full if questions 2 and 4 were withdrawn.

Please be advised that all Freedom of Information request responses are published on the Staffordshire Police website although personal details are not included.
