- * Which driving courses, basic, standard or advanced this technology is applied to?
- * Has the use of this technology completely replaced on the road driver training or sections of this?
- * Has the use of simulators had an affect on the cost of driver training and if so, what were those affects?
- * What format of simulator is used? Example of this would be one screen, steering wheel and pedals.
- * Any information on how many road traffic collisions involving police vehicles within your force took place in 2024.
- * Any information on how many of those road traffic collisions were deemed to be the fault of the police driver.
- * Any information on how many of those road traffic collisions took place during driver training.
- * Any information on how much the road traffic collisions deemed to be the fault of the police driver cost the police force.
