

30 October 2025

FOI Ref 21913

Request - You asked us the following:

I am requesting daily-level data on Anti-Social Behaviour (ASB) incidents, crimes, and related police and court outcomes covering the years 2002 to 2025. The data currently available on data.police.uk is aggregated monthly, but for research purposes, daily data is necessary to analyze the temporal relationship between national football matches and subsequent hate crimes, particularly in relation to players of colour in UK national football teams.

The dataset should include:

- Date of each incident or crime,
- Type/category of offence,
- Outcome of police or court process where applicable,
- Location data (if possible within privacy regulations).

Please provide the data in a machine-readable format, such as CSV or Excel.

We received your request on 02/10/2025 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police's response to your enquiry is as follows:

- Partially disclosed, please see the accompanying file titled 'FOI 21913 Anti-Social Behaviour Data'.**

Please be advised that the data has been provided from 2022 onwards only. Whilst data is held prior to this, it is held in a disaggregated format and cannot be extracted and correlated in the format requested. Please note that anti-social behaviour (ASB) occurrences do not have outcomes as they are not recorded as crimes.

Please be advised that ASB does not relate to hate crimes as these are completely separate offences. The data being provided relates to ASB occurrences only.

Please note that this data has been provided to the best of our ability, subject to the limitation of current recording protocols and systems/software. Additional offences may have been recorded during these timescales but are awaiting finalisation and input onto these systems and would not be present within this dataset.

Every effort is made to ensure that the data presented is accurate and complete. However, it is important to note that this has been extracted from multiple sources, developed for specific policing purposes, for which data extraction methods have not been specifically designed to directly correlate with the terminology of this request. Therefore, the data presented is subject to the inaccuracies and idiosyncrasies inherent in any large-scale recording system.

As a consequence, care should be taken in the interpretation and presentation of this data, so as to not misrepresent the whole or any part of the data disclosed.

Please be advised that all Freedom of Information request responses are published on the Staffordshire Police website although personal details are not included.
