And I ask that anything within the spirit of the request be included in the response.

I also request the following information be presented in a document that can be copy and pasted from, and can allow for keywords to be searched in the document.

Please report information such as dates and ages in the format that Police collect it.

We received your request on 21/10/2025 and have processed this under the Freedom of Information Act (FOIA).

Staffordshire Police's response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this particular request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit. Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit'.

The above information has been withheld for the following reasons:

There is no method by which we can readily retrieve information from our systems to answer this request. This type of offence would form one of several offences recorded under the offence type of 'Administering

poison with intent to injure or annoy', 'Administering poison as to endanger life' or 'Administering substance with intent'. For the time period requested, there have been in excess of 600 occurrences recorded against one or other of the above offence types. In order to ascertain whether each one specifically involved the spiking of a 'drink', the record for each offence would require a manual review. To extract this data would therefore require a very labour-intensive manual trawl through each record.

From dip sampling, it has been estimated that it would take approximately 4 minutes to review each record to answer this request, this would equate to over 40 hours to provide the requested information. To achieve this task would therefore exceed the 18-hour time and cost threshold of the FOI Act by some considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, in order to comply with this obligation please see below.

To assist in refining your request, data could be provided for the following offences occurring within the time period requested, broken down by month:

- Administering poison so as to endanger life
- Administering poison with intent to injure or annoy
- Administering a substance with intent

Please note that these offences may not relate specifically to the spiking of a 'drink'. Data could also be provided for the victim and suspect age, gender, LPT (local policing team) area location and ethnicity, along with any charges. Arrest data could be provided from 20th May 2020 onwards.

Please be advised that all Freedom of Information request responses are published on the Staffordshire Police website although personal details are not included.
