I'm requesting this information under the Freedom of Information Act:

Please could you provide the following data for each of the last five calendar years (e.g. 2021–2025):

1. The total number of vehicles seized per year.
2. A breakdown of vehicle seizures by reason, where recorded. This could include (but is not limited to):
No insurance
No valid driving licence
Illegal modifications
Anti-social driving
Stolen vehicles
Other (please specify where possible)
3. A geographical breakdown of vehicle seizures by town or city (or the most granular level available).
4. The number of Fixed Penalty Notices (FPNs) or other fines issued in relation to the offences leading to vehicle seizures, broken down by offence type and year, where this data is held.
5. Where available, the number of repeat offences or repeat offenders linked to vehicle seizures.
6. The average or total costs recovered from drivers in relation to seized vehicles, including release fees, storage fees, or other associated charges.

I'm requesting the following information under the Freedom of Information Act:

Please provide data in an Excel or email format, with headers of 1, 2, 3 etc.

SP received your request on 24/03/2026 and have processed this under the Freedom of Information Act (FOIA).

SP's response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit.
Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit'.

The above information has been withheld for the following reasons:

There is no method by which SP can readily retrieve information from its systems to answer part of this request. For the time period requested, there have been 40,585 seized vehicles. In order to ascertain the location of the seized vehicle the record for each vehicle would require a manual review. To extract this data would therefore require a very labour-intensive manual trawl through each record.

From dip sampling, it has been estimated that it would take approximately 3 minutes to review each record to answer this request, this would equate to over 2029 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the FOI Act by a considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, to comply with this obligation please see below.

In order to assist in refining your request, data could be provided for questions 1, 2 and 6.

Please be advised that all Freedom of Information request responses are published on the SP website although personal details are not included.
