FOI Ref 22768

Request - You asked Staffordshire Police (SP) the following:

Could you please provide service records for vehicle [REDACTED]

SP received your request on 15/04/2026 and have processed this under the Freedom of Information Act (FOIA).

SP's response to your enquiry is as follows:

SP holds the requested information.

- Could you please provide service records for vehicle [REDACTED] – **Partially disclosed, please see the accompanying file titled 'FOI 22768 Vehicle Service History Data.xlsx'.**

Please note that some odometer readings may be incorrect or missing due to human error when entered onto the system used to service this request.

The following exemption has been applied:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for parts of this particular request.

- Section 31 (1)(a)(b) Law Enforcement
Information is exempt from disclosure under S31(1)(a)(b) where the release of Information would, or would be likely to, prejudice the prevention and detection of crime and/or the apprehension or prosecution of offenders. This exemption is qualified and prejudice-based and, as such, we are required to evidence the harm in disclosure and apply the public interest test.

Harm:

To provide sensitive operational information in relation to force vehicles could undermine existing or future investigations, operations and police tactics. It would allow those with ill intent to cause disruption to operational policing and prejudice the prevention and detection of crime.

Public Interest Test

Factors favouring disclosure under Section 31(1)(a)(b)

To disclose this information would adhere to the basic principle of being open and transparent, it would also lead to a better public awareness of the workings of the police force and the use of vehicles during operations and routine policing.

Factors favouring non-disclosure under Section 31(1)(a)(b)

Releasing such data would give those individuals with the intent to do so, the intelligence required to disrupt police activity. This knowledge would allow those with ill intent to target their offending more effectively which would inevitably lead to an increased likelihood of criminal activity and an increased danger to the public. Any disclosure of information which is likely to undermine the ability to serve the public in preventing and detecting crime can only be considered as being harmful to the public.

Balance test

When considering whether disclosure is appropriate, SP must weigh the strongest reason for disclosure against the strongest reasons for non-disclosure. In this case, whilst the factors favouring disclosure are important in that it would adhere to the basic principle of being open and transparent, SP believe when weighed against the risk of disclosure, undermining SP's ability to prevent and detect crime and hindering SP's ability to protect the public, then non-disclosure takes precedence.

Please be advised that all Freedom of Information request responses are published on the SP website although personal details are not included.
