FOI Ref 22788

Request - You asked Staffordshire Police (SP) the following:

Apologies for the delay - please can this be resubmitted as per your suggestion below?

Clarification sent to applicant:

We can provide data where the Home Office category is recorded as Violence or Sexual Offence, and the free text field includes the word 'Snapchat'. We can also provide data for all offences where the free text search includes the word 'Snapchat' and the victim is under 18 years of age.

Original Request:

Please could you provide:

1. For each calendar year from 2021 to 2025 (or most recent available), the total number of recorded crimes involving sexual offences or violence against the person where "Snapchat" is recorded in a structured field or otherwise readily retrievable without manual review.
2. For the same period, the number of such offences per year broken down by your standard Home Office offence group categories.

If available within cost limits and held in a readily retrievable format, please indicate whether any such offences are flagged as involving child victims.

SP received your request on 20/04/2026 and have processed this under the Freedom of Information Act (FOIA).

SP's response to your enquiry is as follows:

Please note that this data was obtained by completing a summary search for the term "Snapchat". The reliability of these searches cannot be guaranteed as only the MO / summary field of the report is searched.

If this term is mentioned elsewhere (i.e. within the call log, crime report, statements etc) these will not be returned in the results. Additionally, if the term is misspelt within the MO / summary field, this will not be returned.

Please note that this data has been provided to the best of the ability of SP, subject to the limitation of current recording protocols and systems/software. Additional offences may have been recorded during these timescales but are awaiting finalisation and input onto these systems and would not be present within this dataset.

Every effort is made to ensure that the data presented is accurate and complete. However, it is important to note that this has been extracted from multiple sources, developed for specific policing purposes, for which data extraction methods have not been specifically designed to directly correlate with the terminology of this request. Therefore, the data presented is subject to the inaccuracies and idiosyncrasies inherent in any large-scale recording system.

Consequently, care should be taken in the interpretation and presentation of this data, to not misrepresent the whole or any part of the data disclosed.

Please be advised that all Freedom of Information request responses are published on the SP website although personal details are not included.

3. Review Procedure

Receipt of a request for review will be acknowledged in writing. The review will be conducted by a supervisor who is independent from the original Decision Maker. The Information Access Team will set a target date for a response. The response will be made as soon as is practicable with the intention to complete the review within twenty working days. In more complex cases the review may take up to forty working days.

The independent supervisor will conduct a review of the handling of the request for information and of decisions taken, including decisions taken about where the public interest lies in respect of exempt information where applicable. The review enables a re-evaluation of the case, considering the matters raised by the complaint.

4. Conclusion of the Appeal

On completion of the review the independent supervisor will reply to the appellant with the result of the review. If the appellant is still dissatisfied following the review they should contact the Information Commissioner to make an appeal.
