SP holds the requested information.

Please note that there are a number of offences that are still being investigated so with regard to these cases we are citing Section 30(1)(a)(b) of the Freedom of Information Act 2000 – Investigations conducted by Public Authorities.

Please be advised that this data was obtained by completing a summary search for the terms "Snapchat". The accuracy and reliability of these searches cannot be guaranteed as only the MO / summary field of the report is searched. If this term is mentioned elsewhere (i.e. within the call log, crime report, statements etc) these will not be returned in the results. Additionally, if the term is misspelt within the MO / summary field, this will not be returned.

The following exemption has been applied:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for parts of this particular request.

- Section 30(1)(a)(b) – Criminal Investigations

Section 30 is qualified and class based and, as such, we are required to apply the public interest test.

Public Interest Test

Factors favouring disclosure under Section 30(1)(a)(b)

Disclosure of the information would improve the public's knowledge and understanding of the investigatory process and, as all police investigations are publicly funded, would show how public funds are being spent.

Factors favouring non-disclosure under Section 30(1)(a)(b)

Disclosure of the requested information would prejudice how investigations are carried out in the future. SP is charged with enforcing the law, preventing and detecting crime and protecting the communities we serve. Any release of information relating to ongoing investigations could prejudice and undermine those investigations. The prevention and detection of such matters could therefore be hindered and therefore risk interference with evidence, which could have detrimental impact on future investigations. In addition, the right to a fair trial could be undermined.

Balance test

Disclosure under the Freedom of Information Act is a release of information to the world in general and not an individual applicant. Having considered the public interest factors we are required to determine whether on balance the factors favouring disclosure outweigh those which are against disclosure. It is our view that the factors favouring disclosure do not outweigh those which favour non-disclosure.

Please be advised that all Freedom of Information request responses are published on the SP website although personal details are not included.
