FOI Ref 23129

Request - You asked Staffordshire Police (SP) the following:

I am writing to you under the Freedom of Information Act 2000 to request the following information:

1. Data about sexual offences committed by taxi and Uber drivers across the last to three years. These crimes do not necessarily have to be committed during the journey - it can also be the case of the passenger(s) having been sexually attacked after they had left the vehicle. We'd need numbers for the last 2-3 years to estimate if there has been a rise of these crimes - and if possible, also the number of those instances where it ended with the taxi/Uber driver serving a sentence.

If it is not possible to answer this request in its entirety due to one or more questions exceeding the cost of compliance limits identified in Section 12, please answer the ones that do not exceed the limits and disregard the ones that do.

SP received your request on 14/07/2026 and have processed this under the Freedom of Information Act (FOIA).

SP's response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit.

Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit'.

The above information has been withheld for the following reasons:

There is no method by which SP can readily retrieve information from local police systems to answer this request. For the period requested, there have been in excess of 11,000 sexual offences recorded. To determine whether the offence was committed by a taxi or Uber driver, the record for each offence would require a manual review. This is because it is not mandatory to record the occupation of a suspect or offender on the occurrence record. To extract this data would therefore require a very labour-intensive manual trawl through each record.

From dip sampling, it has been estimated that it would take approximately 5 minutes to review each record to answer this request, this would equate to over 916 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the Freedom of Information Act by a considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, to comply with this obligation please see below.

Unfortunately, SP cannot suggest a way in which your request could be simplified or pared down to bring it within the confines of the time and cost threshold.

All Freedom of Information request responses are published on the SP website although personal details are not included.
