However, it is important to note that data is extracted from multiple sources, developed for specific policing purposes, for which data extraction methods have not been specifically designed to directly correlate with the terminology of this request. Therefore, the data presented is subject to the inaccuracies and idiosyncrasies inherent in any large-scale recording system.

Consequently, care should be taken in the interpretation and presentation of this data, to not misrepresent the whole or any part of the data disclosed.

All Freedom of Information request responses are published on the SP website although personal details are not included.
