

31 July 2026

FOI Ref 23177

Request - You asked Staffordshire Police (SP) the following:

1. Monthly counts, from 1 July 2022 to the most recent complete month, of recorded offences of theft from a motor vehicle (the standard Home Office offence category), at force level only, taken directly from your crime recording system with no manual review of individual reports.

I am content to drop entirely the requirements to (a) isolate tools specifically, (b) break the figures down by geography, and (c) provide stolen value and outcome data, if any of those are what push the request over the limit.

If a bulk keyword or free-text search of the property/MO fields for "tools" (or similar terms) can be run within the cost limit, I would welcome that as an alternative, but it is not essential.

SP received your request on 24/07/2026 and have processed this under the Freedom of Information Act (FOIA).

SP's response to your enquiry is as follows:

SP holds the requested information.

- 1. Monthly counts, from 1 July 2022 to the most recent complete month, of recorded offences of theft from a motor vehicle (the standard Home Office offence category), at force level only, taken directly from your crime recording system with no manual review of individual reports.
- I am content to drop entirely the requirements to (a) isolate tools specifically, (b) break the figures down by geography, and (c) provide stolen value and outcome data, if any of those are what push the request over the limit.
- If a bulk keyword or free-text search of the property/MO fields for "tools" (or similar terms) can be run within the cost limit, I would welcome that as an alternative, but it is not essential.
- Disclosed, please see the accompanying file titled 'FOI 23177 Refinement of FOI 23169 Theft of Tools from Vehicles Data'.

Please note;

- this data was obtained by completing a summary search for the terms "tools". The accuracy and reliability of these searches cannot be guaranteed as only the MO / summary field of the report is searched. If this term is mentioned elsewhere (i.e. within the call log, crime report, statements etc) these will not be returned in the results. Additionally, if the term is misspelt within the MO / summary field, this will not be returned. To provide accurate results would require manually interrogating each crime within the specified timeframe to establish its relevance to your request.
- that these figures have been provided to the best of the ability of SP, subject to the limitation of current recording protocols and systems/software. Additional offences may have been recorded

during these timescales but are awaiting finalisation and input onto these systems and would not be present within this dataset.

Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that data is extracted from multiple sources, developed for specific policing purposes, for which data extraction methods have not been specifically designed to directly correlate with the terminology of this request. Therefore, the data presented is subject to the inaccuracies and idiosyncrasies inherent in any large-scale recording system.

As a consequence, care should be taken in the interpretation and presentation of this data, so as to not misrepresent the whole or any part of the data disclosed.

All Freedom of Information request responses are published on the SP website although personal details are not included.
