FOI Ref 22962

Request - You asked Staffordshire Police (SP) the following:

I am writing to request information under the Freedom of Information Act 2000 regarding the theft of vehicle parts (commonly referred to as "car stripping") within your jurisdiction.

Specifically, I would like to request the following data for the years 2021, 2022, 2023, 2024 and 2025, or the most recent date available:

- Total number of reported "Theft from a Motor Vehicle" offence where vehicle parts or components were stolen (excluding the theft of personal belongings inside the car like laptops or bags).
- A breakdown of the types of parts stolen (e.g., Catalytic Converters, Steering Wheels, Headlights/Indicators, Wing Mirrors, Airbags, or Infotainment/Sat Nav units).

If possible, please provide the data in spreadsheet format (e.g. CSV or Excel).

If data is not held for the full period requested, or if the breakdown cannot be produced within the statutory time or cost limits, please instead provide the most up to date figures available for a complete 12 month period.

SP received your request on 04/06/2026 and have processed this under the Freedom of Information Act (FOIA).

SP's response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit.
- Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit'.

The above information has been withheld for the following reasons:

There is no method by which SP can readily retrieve information from our systems to answer this request. For the period requested, there have been in excess of 9,600 offences of 'Theft from a Motor Vehicle' offences. To ascertain whether vehicle parts or components were stolen and a breakdown of the types of parts stolen, would require a manual review. To extract this data would therefore require a very labour-intensive manual trawl through each record.

From dip sampling, it has been estimated that it would take approximately 5 minutes to review each record to answer this request, this would equate to over 800 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the Freedom of Information Act by a considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, to comply with this obligation please see below.

In order to assist in refining your request, data could be provided for the total number of 'Theft from a Motor Vehicle' offences broken down by year.

All Freedom of Information request responses are published on the SP website although personal details are not included.
