

23 March 2026

FOI Ref 22689

Request - You asked Staffordshire Police (SP) the following:

The total value of fines issued to university students for breaches of COVID-19 regulations (including, but not limited to, house parties and social distancing violations) between 1 January 2020 and 31 December 2023.

The total amount of money received from these fines during the same period (1 January 2020 to 31 December 2023).

Where possible, please provide a breakdown of these fines by category of offence.

Where possible, please also present this data in a table format.

If any part of this request exceeds cost limits, I would be grateful if you could advise how it may be refined.

SP received your request on 23/03/2026 and have processed this under the Freedom of Information Act (FOIA).

SP's response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit.
- Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit'.

The above information has been withheld for the following reasons:

There is no method by which SP can readily retrieve information from our systems to answer this request. Between April 2020 and July 2021, there were 2,239 individuals issued with fines in relation to Covid breaches. In order to determine whether these individuals were university students, and the recorded value of any such fines given, the record for each incident would require a manual review. Further review would then need to be conducted in order to determine the money received from any such fines. To extract this data would therefore require a very labour-intensive manual trawl through each record. For the remaining time period, (January 2020 – March 2020 and August 2021 – December 2023), there are 320 Covid related incidents recorded within our incident recording systems. Each of these incidents would also need to be manually reviewed to see if they are relevant to the request.

From dip sampling, it has been estimated that it would take approximately 5 - 10 minutes to review each record to answer this request, this would equate to between 213 and 426 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the Freedom of Information Act by a considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, to comply with this obligation please see below.

Unfortunately, SP cannot suggest a way in which your request could be simplified or pared down to bring it within the confines of the time and cost threshold.

Please be advised that all Freedom of Information request responses are published on the SP website although personal details are not included.
