

19 May 2026

FOI Ref 22885

Request - You asked Staffordshire Police (SP) the following:

1. Please can you provide me with the total number of offences recorded by police, broken down by month, from January 2019 up until April 2026. Using a key word search please could you limit these figures only to offences where the word 'cocaine' was mentioned in the crime MO or summary notes.

2. Please can you provide me with the total number of offences recorded by police, broken down by Home Office crime code and month, from January 2019 up until April 2026. Using a key word search please could you limit these figures only to offences where the word 'cocaine' was mentioned in the crime MO or summary notes.

On accuracy, I am aware that not all offences mentioning the word cocaine will necessarily have involved cocaine. For the purposes of this request I am interested in the number of crimes of different types that mention the word in summary/MO notes. For Home Office crime codes, please see the spreadsheet here if useful! <https://www.gov.uk/government/publications/counting-rules-for-recorded-crime>

SP received your request on 15/05/2026 and have processed this under the Freedom of Information Act (FOIA).

SP's response to your enquiry is as follows:

SP holds some of the requested information.

 - **Partially disclosed, please see the accompanying file titled 'FOI 22885 Cocaine Related Crimes Data'.**
- On accuracy, I am aware that not all offences mentioning the word cocaine will necessarily have involved cocaine. For the purposes of this request I am interested in the number of crimes of different types that mention the word in summary/MO notes. Please be advised that the data requested can only be provided from May 2020 onwards as this is when a new crime recording system was introduced, any MO's before that time cannot be searched.

Please note: This data was obtained by completing a summary search for the terms "cocaine". The accuracy and reliability of these searches cannot be guaranteed as only the MO / summary field of the report is searched. If this term is mentioned elsewhere (i.e. within the call log, crime report, statements etc) these will not be returned in the results. Additionally, if the term is misspelt within the MO / summary field, this will not be returned. To provide accurate results would require manually interrogating each crime within the specified timeframe to establish its relevance to your request.

Please note that this data has been provided to the best of the ability of SP, subject to the limitation of current recording protocols and systems/software. Additional offences may have been recorded during these timescales but are awaiting finalisation and input onto these systems and would not be present within this dataset.

Every effort is made to ensure that the data presented is accurate and complete. However, it is important to note that this has been extracted from multiple sources, developed for specific policing purposes, for which data extraction methods have not been specifically designed to directly correlate with the terminology of this request. Therefore, the data presented is subject to the inaccuracies and idiosyncrasies inherent in any large-scale recording system.

Consequently, care should be taken in the interpretation and presentation of this data, to not misrepresent the whole or any part of the data disclosed.

Please be advised that all Freedom of Information request responses are published on the SP website although personal details are not included.

In more complex cases the review may take up to forty working days.
