

3 September 2026

FOI Ref 23338

Request - You asked Staffordshire Police (SP) the following:

Please provide the following information covering the most recent 12-month period for which complete data is available:

- The total number of vehicle thefts recorded.
- The number of vehicle thefts identified as involving keyless entry, relay attack, or any equivalent offence code or marker used to identify keyless vehicle thefts (where separately recorded).
- The vehicle recovery rate for the same period (or, if recovery rate is not routinely recorded, the number of stolen vehicles recovered).

I would like the information to be provided in CSV or Microsoft Excel format, containing the following columns:

Total vehicle thefts

Keyless vehicle thefts

Vehicle recovery rate

If your force does not separately record whether a theft involved keyless entry or relay attack, please confirm this within your response.

SP received your request on 02/09/2026 and have processed this under the Freedom of Information Act (FOIA).

SP's response to your enquiry is as follows:

In accordance with Section 17(1) of the Freedom of Information Act, this letter represents a refusal notice for this request.

The following exemption has been applied:

- Section 12(1) where the cost of compliance exceeds the appropriate limit.

Section 12(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the prescribed limit.

The above information has been withheld for the following reasons:

There is no method by which SP can readily retrieve information from local police systems to answer this request. For the period requested, there have been in excess of 1,600 offences of theft of a motor vehicle recorded. To ascertain whether the offence involved keyless entry or a relay attack, the record for each offence would require a manual review. Further review would also be required to determine the number of vehicles that were recovered. To extract this data would therefore require a very labour-intensive manual trawl through each record.

From dip sampling, it has been estimated that it would take approximately 5 minutes to review each record to answer this request, this would equate to over 133 hours. To achieve this task would therefore exceed the 18-hour time and cost threshold of the Freedom of Information Act by a considerable margin.

Advice and assistance

Section 16 of the Act places an obligation upon the Authority to provide advice and assistance, to comply with this obligation please see below.

If your request was refined, SP would be able to provide the number of offences of theft of a motor vehicle recorded between 02/09/2025 and 01/09/2026.

All Freedom of Information request responses are published on the SP website although personal details are not included.

Freedom of Information Request Appeals Procedure

1. Who Can Ask for a Review

Any person who has requested information from SP, which has been dealt with under the Freedom of Information Act, is entitled to complain and request an internal review, if they are dissatisfied with the response they received.

2. How to Request a Review

Requests for review of a Freedom of Information request must be made in writing within two months of the date of receipt of this email, and should be addressed to: IAT@staffordshire.police.uk

The reference number, date of the request and details of why the review is being requested must be included. Requests for review should be brought to the attention of the Information Access Team within two months of the Force's response to the original FOI request.

3. Review Procedure

Receipt of a request for review will be acknowledged in writing. The review will be conducted by a supervisor who is independent from the original Decision Maker. The Information Access Team will set a target date for a response. The response will be made as soon as is practicable with the intention to complete the review within 20 working days. In more complex cases the review may take up to 40 working days.

The independent Supervisor will conduct a review of the handling of the request for information and of decisions taken, including decisions taken about where the public interest lies in respect of exempt information where applicable. The review enables a re-evaluation of the case, considering the matters raised by the complaint.

4. Conclusion of the Appeal

On completion of the review the Independent Supervisor will reply to the appellant with the result of the review. If the appellant is still dissatisfied following the review they should contact the Information Commissioner to make an appeal. The Information Commissioner can be contacted via the following link: <https://ico.org.uk/make-a-complaint/foi-and-eir-complaints/foi-and-eir-complaints/>
