Policy owned by Corporate Services Policy and Procedure

1. Policy Purpose and key drivers

The aims and scope of this policy are to set out a standard framework within which all force policies and associated procedures are to be developed and published .

This will ensure that no essential elements are missed whilst unnecessary bureaucracy is minimised.

The standard framework ensures that the operational procedures as part of a policy are readily identifiable and accessible making reference to them more direct and therefore operationally relevant improving implementation. There is little to be gained if published policy is not fully understood by those who are expected to put it into practice.
